

# AIA TENNIS INTERN JOBS

*All AIA Tennis interns will be trained in AIA methods, become familiar with sports ministry language, and gain a deeper understanding of how to share the Gospel with athletes facing challenges on and off the court. Interns have the opportunity to join full-time staff as a tennis missionary and/or use their internship to grow skills in communication, leadership, evangelism, discipleship, creativity, marketing, service, coaching, training, and more. Throughout the internship, you'll also have opportunities to grow in your identity in Christ and explore your God-given calling.*
